**MENTAL HEALTH HISTORY**STUDENT NAME PARTHBHAI  
STEVENS CWID 20005769

Please note: answering the questions on this page is entirely optional. These questions are being asked as a way for students to self-disclose current or past history of mental health concerns and to engage proactively in conversations about caring for their emotional well-being during their time at Stevens.

- |   |     |                                     |                      |
|---|-----|-------------------------------------|----------------------|
| (1) Are you currently receiving psychotherapy from a mental health professional?  | Yes | <input checked="" type="checkbox"/> | Prefer not to answer |
| (2) Have you previously received psychotherapy from a mental health professional?   | Yes | <input checked="" type="checkbox"/> | Prefer not to answer |
| (3) Are you currently under the care of a psychiatrist or other health professional who prescribes medication to treat an emotional condition?        | Yes | <input checked="" type="checkbox"/> | Prefer not to answer |
| (4) Have you previously been under the care of a psychiatrist or Other health professional who prescribes medication to treat an emotional condition? | Yes | <input checked="" type="checkbox"/> | Prefer not to answer |

Would you like to be contacted by the Office of Counseling and Psychological Services (CAPS) to begin a discussion about proactively planning your emotional well-being during college?

Yes No **PERMISSION FOR RELEASE OF INFORMATION TO STUDENT COUNSELING**

By signing below, you (the above-named student) are consenting to have the health information shared on this page be released by the staff of Stevens Health Services (SHS) to the Stevens Office of Counseling and Psychological Services (CAPS). Please note that signing this consent is optional. The sole purpose of sharing your information in this manner is so that a professional at CAPS may reach out to you to have a conversation about ways to proactively address your emotional well-being during your time at Stevens.

I have read the above statement and agree to provide permission as requested above. I understand that this permission can be revoked by written notice to both facilities at anytime.

# Meningococcal Disease for College Students

New Jersey law requires that certain students receive meningococcal vaccines!

## Are you protected?

Students attending college are at higher risk of getting meningococcal disease, especially first-year students living in residence halls.

**Get vaccinated!**

### What is meningococcal disease?

Meningococcal (muh-nin0jo-cok-ul) disease is a serious bacterial infection caused *Neisseria meningitidis*. The bacteria can invade the body, leading to severe swelling of the tissue surrounding the brain and spinal cord (meningitis) or bloodstream infection. Both of these types of infections are very serious and can be deadly in a matter of hours. Even with antibiotic treatment, 10 to 15 in 100 people infected with meningococcal disease will die. Up to 1 in 5 survivors will have long-term disabilities, such as loss of limb(s), deafness, nervous system problems, or brain damage.

### How do people get meningococcal disease?

People spread meningococcal bacteria by sharing respiratory and throat secretions (saliva/spit). Generally, the bacteria are spread by close or lengthy contact with a person who has meningococcal disease such as:

- ❑ People in the same household
- ❑ Roommates
- ❑ Anyone with direct contact with the patient's oral secretions such as through kissing or sharing eating utensils, cigarettes/vaping devices, and food.

### What are the symptoms of meningococcal disease?

Symptoms can progress quickly and may include:

- high fever
- headache
- stiff neck
- confusion
- sensitivity to light
- nausea
- vomiting
- exhaustion
- purplish rash

Some people carry the bacteria in their noses and throat, but they don't become ill. Even though they do not have symptoms, they can still spread the bacteria to others.

### How can I protect myself from meningococcal disease?

The best way to protect yourself from meningococcal disease is to **get vaccinated**. There are two types of meningococcal vaccines that protect against the common serogroups (A, B, C, W, Y) of the bacteria:

- Meningococcal conjugate or MenACWY vaccines (Menveo® or Menactra®)
- Serogroup B meningococcal or MenB vaccines (Bexsero® or Trumenba®)

For more information, please visit <https://nj.gov/health/cd/topics/meningo.shtml>, or contact the NJDOH Vaccine Preventable Disease Program at 609-826-4861.

## MENINGOCOCCAL VACCINATION REQUIREMENT QUESTIONNAIRE

As a new student enrolling in a public or private institution of higher education in New Jersey, you are required by state law (P.L.2019, C.332 (N.J.S.A 18A:62-15.1) to receive meningococcal vaccines as recommended by the Advisory Committee on Immunization Practices (ACIP) and the Centers for Disease Control and Prevention (CDC) as a condition of college attendance.

There are 2 types of meningococcal vaccines available in the United States:

- Meningococcal Meningitis ACWY (MenACWY) vaccines (Brand names are Menactra® and Menveo®): Routinely received at ages 11-12 years with a booster dose at 16 years. Adolescents who receive their first dose of MenACWY on or after their 16<sup>th</sup> birthday do not need a booster dose. Additional doses may be recommended based on risk. People 19 years of age and older are not routinely recommended to receive the MenACWY vaccine unless they are living in college housing or if another risk factor applies.
- Meningococcal Meningitis B (MenB) vaccines (Brand names are Bexsero® and Trumenba®): Routinely recommended for people ages 10 years and older with high-risk health conditions. People 16-23 years old (preferably at ages 16-18 years) may also choose to be vaccinated against MenB.

To find out what type of meningococcal meningitis vaccine(s) you will need to attend Stevens, please answer the following questions. Be sure to show this form to your healthcare provider so that these vaccinations can be noted on your record of vaccination.

You will need Meningococcal Meningitis ACWY vaccination if you answer YES to one or more of the age and risk factor questions below.

1. Are you 18 years of age or younger yes  no
2. Are you 19 years of age or older and plan to apply for college housing? yes  no
3. Do you have a rare type of immune disorder called complement component deficiency or Human Immunodeficiency Virus (HIV)? yes  no
4. Are you taking a type of medicine called a complement inhibitor (for example, Soliris\* or Ultomiris \*) yes  no
5. Has your spleen been removed or do you have a damaged spleen, including sickle cell disease? yes  no

You will need Meningococcal Meningitis B vaccination if you answer YES to one or more of the risk factor questions below.

1. Do you have a rare type of immune disorder called complement component deficiency? yes  no
2. Are you taking a type of medicine called a complement inhibitor (for example Soliris\* or Ultomiris\*)? yes  no
3. Has your spleen been removed or do you have a damaged spleen-including sickle cell disease? yes  no

I verify that the information provided by me on this form is true.

*Parth*

Student's signature (or parent/legal guardian if minor)

Date 3/8/2021

Though Meningococcal Meningitis B vaccination is not required for persons 16-23 years of age, you may choose to receive Men B vaccine to provide short-term protection against most strains of Men B disease. Learn more about meningococcal disease and Men B vaccination at [www.cdc.gov/meningococcal](http://www.cdc.gov/meningococcal). Please consult with your healthcare provider if you have questions about the meningococcal vaccines or if you need to receive the vaccines to attend Stevens.

## IMMUNIZATION RECORDS

### EXEMPTIONS (If you are applying for an exemption, please check below and provide the information indicated.)

- IMMUNE STATUS** – Measles, Mumps and Rubella antibody titers (Blood Test) Copy of Laboratory results showing that you are immune is required. Only positive or immune titers will be accepted. Equivocal results are NOT acceptable.
- AGE** – Born prior to January 1, 1957 (valid for MMR exemption only)
- MEDICAL** – Physician statement required – must include diagnosis. If pregnant, statement must include your due date. (This exemption is reviewed to determine continuation of exemption.) You may be required to submit a physician statement annually.
- RELIGIOUS** – Signed statement explaining to the Student Health Services how the administration of the particular vaccine conflicts with Bona Fide religious tenets/beliefs. Exemptions are not given for philosophical or moral objections to immunization.

### THIS SECTION MUST BE COMPLETED AND SIGNED BY A PHYSICIAN OR HEALTH CARE PROVIDER OR A COPY OF YOUR IMMUNIZATION RECORDS MUST BE ATTACHED.

If documentation of vaccines is unavailable, an immune titer blood test is required (please include actual copy of results). If the titer does not indicate immunity (including equivocal immunity), vaccines are required.

#### MEASLES, MUMPS, RUBELLA (MMR)

- 2 doses of vaccine administered, on or after 12 months of age, and at least 28 days apart are required, OR
- Laboratory proof of immunity; copy of Measles (Rubeola), Mumps, and Rubella Virus IgG Antibody laboratory titer report MUST be attached if submitting in lieu of immunization dates. EQUIVOCAL RESULTS NOT ACCEPTABLE.

#### MEASLES, MUMPS, RUBELLA (MMR): REQUIRED

- 2 doses of vaccine administered, on or after 12 months of age, and at least 28 days apart are required, OR
- Laboratory proof of immunity; copy of Measles (Rubeola), Mumps, and Rubella Virus IgG Antibody laboratory titer report MUST be attached if submitting in lieu of immunization dates. EQUIVOCAL RESULTS NOT ACCEPTABLE.

Where can you obtain an acceptable record of your immunizations? Students are responsible for contacting the various agencies or institutions and for requesting a copy of their immunization records.

NICE Children Hospital  
204 Loh, Shindeo Colony, Lal Darwaja,

Unapani Road, Surat.

ALL RECORDS MUST BE IN ENGLISH OR ACCOMPANIED BY A TRANSLATION.

1. High School or Previous Colleges: A copy of the immunization record may be obtained from your high school, Board of Education, or a previously attended college. These records may contain adequate information.
2. Personal Immunization Record: Records from pediatricians or family medical providers are acceptable, if verified (with stamp or signature), and contain proof of minimum requirements.
3. Local Health Department: If primary immunizations were received at a local health department, a copy may be obtained from this source.

# REPORT OF HEALTH EVALUATION

TO THE EXAMINING PHYSICIAN: Please review the student's history and complete the physician's form. Please comment on all positive answers. THE STUDENT HAS BEEN ACCEPTED. The information supplied will not affect his/her status: It will be used only as a background for providing health care, if this is necessary. This information is strictly for the use of Health Services and will not be released without student consent.
